Contents

Chapter 1	General introduction	9
Chapter 2	Mechanical ventilation and acute renal failure	19
Chapter 3	Renal injury through systemic mediator release – just theory or a causal relationship?	37
Chapter 4	High tidal volume mechanical ventilation-induced lung injury in rats is greater after acid instillation than after sepsis-induced acute lung injury, but does not increase systemic inflammation: an experimental study	69
Chapter 5	Production of endothelin-1 and reduced blood flow in the rat kidney during lung-injurious mechanical ventilation	89
Chapter 6	High tidal volume mechanical ventilation during sepsis causes kidney apoptosis and decreased kidney function without significant lung injury	107
Chapter 7	Inhibition of poly(adenosine diphosphate-ribose) polymerase attenuates ventilator-induced lung injury	125
Chapter 8	Renal hypoperfusion and impaired endothelium-dependent vasodilation in an animal model of VILI: the role of the peroxynitrite-PARP pathway	145
Chapter 9	Summary, discussion and future perspectives	163
Chapter 10	Nederlandse samenvatting – Summary in Dutch	177
	List of publications	187
	Curriculum Vitae	193
	Dankwoord	197
